

ChemLogic E15 Phenol based Diisocyanates Ph(NCO)₂ Detection Tape

ChemLogic E15 Diisocyanates Detection tape is designed to be selective, quick responding and sensitive to phenol based diisocyanates without cross interference to NO_x and O₃.

These includes:

Toluene Diisocyanate (TDI)	Isophorone Diisocyanate (IPDI)	Diphenylmethane Diisocyanate (MDI)
P-Phenylene Diisocyanate (PPDI)	Naphthalene Diisocyanate (NDI)	

The ChemLogic E15 Tape will NOT respond to:

Acids	Alcohols	Ammonia
Carbon Dioxide	Carbon Tetrachloride	Chlorine
Carbon Monoxide	Freon's	Hydrocarbons
Hydrogen	Hydrogen Fluoride	Hydrogen Bromide
Hydrogen Chloride	Hydrogen Sulfide	Hydrides
Nitrogen	Nitrogen Oxides	Phosgene
Sulfur Dioxide	Solvents	Ozone

Part Number: 1-E15-020; 1-E15-022; 1-E15-070
